

**Mayor Nick Sortal  
City of Plantation**

**Counselor on Campus**

In 2010, our city created a health clinic on campus for employees. By advocating wellness, we have cut down on our insurance payouts and time missed from work. If a person needs a flu shot, a blood draw or minor care, we provide it. In 2023, Mayor Nick Sortal also approved a full-time mental health counselor for employees. Employees can visit by in-person or telehealth with a trained mental health counselor. We have statistics showing a decrease in depression and anxiety among our city employee participants. Meanwhile, the counselor also has created a book club and other community building opportunities.
